5 ways
To Use Common Objects to Develop Speech

Get your-self a box and fill it with random little items you can find around your home.

1. Choose and name

2. Match- car and car, pen and pen

3. Object function- 'give me the one to brush my hair' - 'give me the one to write'

4. Requesting 1, 2 and 3 items- 'Give me the brush', 'give the brush and the car', 'give me the brush, car and pen'.

5. Why and when question, "why do we use a pen"?....."when do we use a brush"?

Have fun!
